## CODING WORK EXPERIENCE

**reOS** - Frontend Developer Full-time July 2021 - October 2022

- Experience - Building a production application with responsive UX and UI design.
- Core Responsibilities - Agile development, product management, automated testing and working with a restful API.
- Techstack - **HTML, CSS - Sass, Javascript, RXJS, Typescript, React and Redux.**

**Bertha Centre UCT Business School** - Frontend Developer Part-time retainer: July 2022 - current

- Techstack - JavaScript, GatsbyJS, Tailwind CSS, Netlify CMS and Netlify.

**The Fantastic Agency** - Financial Director and Head Booker: Nov 2019 - Feb 2021

- Core Responsibilities - Managed the company portfolio of 250 models to promote company profitability. Managed the full bank reconciliation and introduced efficient systems. Over my 2 year tenure with the organisation revenue increased twofold, with an inevitable downturn during the full lockdown.

**Supa Tutor & Mathamagicians** - Founder edTech 2011 - 2021

- As the founder, I created content and designed and developed the online platform. Approached with a healthy offer to purchase the company in 2015, I opted to continue with the endeavour.

## EDUCATION

- **University of London BSc Computer Science Machine Learning & Artificial Intelligence (2024)**
- Google IT Support Certificate 2022
- Shaw Academy, Diploma Web Development (2019)
- Shaw Academy, Diploma Web Design (2019)
- Shaw Academy, Diploma Financial Trading & Investment (2019)
- **University of Cape Town, 2nd Year Chartered Accounting & Information Systems (2009 & 2010)**
- **Camps Bay High School Matriculated (2008)**

## LEADERSHIP & AWARDS

- **Camps Bay High School - Deputy Head Prefect, Head of Debating, 1st Team Tennis & 1st Team Squash**
- **City of Cape Town Junior City Council 2006**

## OTHER SKILLS

- **Proficient: Github, HTML, CSS, Sass, CSS Modules, Javascript, React and Redux**
- Foundation: RXJS, Typescript, ExpressJS, Bootstrap, SQL, Node, Python, Jest & Cypress.
- Notable: English speaker & Google IT Support Certificate
- Notable: Completed University Modules: Data Structures and Algorithms 1 & 2, Computational Mathematics, Discrete Mathematics, Web Development and Networking, Databases and the Web.
- Soft: A communicative, collaborative, problem solver, analytical & critical thinker, reliable, professional, organised, a team player, hard worker and a natural leader.

# Reference Letter

PETER KAUTWIMA

26 November 2022

To whom it may concern,

I can confirm that Peter Kautwima completed a four month internship with reOS from 11 July 2021 to 10 November 2021. Upon the successful completion of his internship he was appointed as a full time Junior Front-End Software Developer. Peter was a full time reOS employee, in the mentioned designation, from 11 November 2021 to 3 October 2022.

During his time with reOS, Peter worked on the following noteworthy projects, amongst other small enhancements and bug fixes:

1. An internal admin tool for assisting the support team in reconciling and allocating payments with incorrect references. The wallet service auto-allocates payments with correct references, but there are occurrences where payments are made with an incorrect reference and these need to be manually allocated accurately and efficiently. This tool enabled the support team to view and search for payments with incorrect references easily, and provide supporting information to assist the decision making process. Once a payment was allocated, the tool would execute the payment instruction.
2. File management and dashboard stats.
3. Optimising our sorting and filtering throughout the UI of the web app.
4. The UI implementation for an integration with a business partner of reOS, that provides adjacent services relating to property maintenance services.
5. The extension of our user invitation management workflows and user role permission settings, while improving the overall UX.

Over and above his technical function, Peter was a great bridge between the development team and the customer facing operations team. He also fulfilled some small project management functions within our sprints and played a very active role in following up on critical systems issues and QA tasks.

Unfortunately, due to a restructure in October 2022, Peter's role was made redundant and he was retrenched on 3 October 2022.

Yours sincerely

A handwritten signature in black ink, appearing to read "Craig Buckley".
